# Valtteri Lieskivi

IT Specialist @ SSAB  
Finland

## Summary

I am a committed IT enthusiast, my hobbies include e.g. creating websites, customizing and tuning operating systems, and building computers.

Throughout my career, I have been working in customer service, so I have gained a lot of experience. I have worked as an independent IT support in the Loimaa region, worked at Gigantti in a HelpDesk-style Knowhow concept and as IT-support at Valtori. I currently work as an IT specialist at SSAB.

I am always eager to learn new things about systems and how they work. I am especially interested in growing cloud infrastructure.

---
